

# GRAPHIC DESIGN & PHOTO

## ABOUT VIVIANA YAKER

I am a Graphic Designer and I have been working on it as freelance with different projects (hospitality, personal projects, small brands) and with a Spanish company dedicated to develop and manufacture casino games and machines.

My main hobby is the photography and concurrently, I have been doing some courses related to Community Management and Social Media; as a Social Communicator I am really into the online management, the social networks, IT and advertising.

## SKILLS
